Dear Faculty Coordinator;

I am Adidev Halder(2620080005), I am a member of the organising committee and speaking on their behalf for the upcoming event "Viwentiaa 2026" which is being held at our KLH Bachupally Campus Next Wednesday(7th October 2026) from 1:00pm to 5:00pm. In the organising committee I have been given the role of ensuring that the event goes smoothly and to also aid people in working towards the preparations for the event.

So far we have made arrangements in the auditorium. For example, we have tested the speakers and adjusted their volume to what we would like to use during the actual event.

One speaker in the auditorium however was faulty and we have placed an order for a replacement. We also tested the large screen and the stage lighting. No errors were found in these however.

Albeit there is still a lot of preparations left to be done and we are confident we will be able to finish it by next Monday. We still have to receive an answer from the caterer to whom we inquired about providing snacks during the event. We need to arrange more chairs in the cafeteria and remove the standing tables(which are used by students) temporarily. Lastly we need to decorate the campus with posters and papercraft etc in order for the campus to look at its best during the event.

We are working and trying our best to meet your expectations, I will send another progress report to you on behalf of my time such as this one on Saturday.

Thank You for taking time out of your work and reading this email and we hope to receive any recommendations regarding our preparations.

Regards,

Adidev Halder(On behalf the organising committee)
